

LINEAR AND CIRCULAR ARRANGEMENT_28-9-2026

Directions for questions 1 to 4: These questions are based on the following information.

Gitanjali, Shradda, Sujata, Harini, Manjula, Priya and Tanuja are sitting on a bench facing North.

- i. Exactly three and exactly five persons are sitting to the left of Harini and Manjula respectively.
- ii. Shradda is the only one in between Priya and Sujata.
- iii. Priya and Tanuja are at the ends.

Who is sitting at the middle?

☒ a) Harini (Your answer - ✓)

☐ b) Gitanjali

☐ c) Shradda

☐ d) Sujata

Solution:

From (i)

_____ Harini _____ Manjula _____

From (ii) and (iii)

Priya Shraddha Sujata Harini _____ Manjula Tanuja

∴ from the above information all the girls are sitting according to the following arrangement.

Priya Shraddha Sujat Harini Geetanjali Manjula Tanuja

Harini is at the middle.

Choice (A)

Who is sitting at the right end?

☐ a) Priya

☒ b) Tanuja (Your answer - ✓)

☐ c) Shradda

☐ d) Cannot be determined

Who is sitting to the immediate left of Harini?

- ☐ a) Shradda
- ☐ b) Priya
- ☒ c) Sujata (Your answer - ✓)
- ☐ d) Cannot be determined

Who is sitting to the immediate right of Gitanjali?

- ☒ a) Manjula (Your answer - ✓)
- ☐ b) Tanuja
- ☐ c) Sujata
- ☐ d) None of these

Directions for questions 5 to 8: These questions are based on the following information.

Each of the five friends – Brahma, Bala, Bhargav, Bhanu and Bheem – is living along with his wife in one of the houses numbered 1 to 5. The five houses, House no: 1 to House no: 5 are in a row in the same order from left to right. Each of these friends uses a different apparel brand among Polo, Reid and Taylor, Peter England, Raymonds and Woodland. The names of the wives are Vanaja, Veena, Vijaya, Vimala and Vinati. We know the following additional information.

- i. Both Bhargav and the person who uses Peter England are the friends of Vanaja's husband.
- ii. Bheem's house is to the immediate left of the house of Bala, who is the husband of Vimala.
- iii. The man who uses Raymonds lives in House no: 5 and his wife is Vijaya.
- iv. Bheem uses Peter England and lives in House no: 3. Bhargav lives in House no: 1.
- v. Vinati's husband uses Polo and Brahma uses Woodland.

Bhanu lives in

- ☐ a) House no: 1
- ☐ b) House no: 2
- ☐ c) House no: 3

☒ d) House no: 5 (Your answer - ✓)

Solution:

From (iv) Bheem lives in House no: 3 and he uses Peter England.
From (ii), Bala's wife is Vimala and they stay in House no: 4.
From (iii) Vijayas stays in House no: 5 and her husband uses Raymonds.
Let us tabulate the complete data.

House no.	Wife	Husband	Apparel brand
5	Vijaya	Bhanu	Raymonds
4	Vimala	Bala	Reid and Taylor
3	Veena	Bheem	Peter England
2	Vanaja	Brahma	Woodland
1	Vinati	Bhargav	Polo

Bhanu lives in House no: 5.

Choice (D)

The apparel brand used by Bhargav is

- ☐ a) Woodland
- ☐ b) Reid and Taylor
- ☒ c) Polo (Your answer - ✓)
- ☐ d) Raymonds

The man who uses the apparel brand Reid and Taylor is

- ☒ a) Bala (Your answer - ✓)
- ☐ b) Bhargav
- ☐ c) Bhanu
- ☐ d) Cannot be determined

The married couple living in the house which is to the immediate left of Bheem's house is

- ☐ a) Veena and Bhanu
- ☐ b) Vinati and Brahma
- ☐ c) Vanaja and Bala

- ☒ d) Vanaja and Brahma (Your answer - ✓)

Directions for questions 9 to 12: These questions are based on the following information.

Eight persons A through H are sitting around a circular table such that

- i. F is three places away to the left of H, who is not opposite D.
- ii. C is not sitting adjacent to A, who is opposite G.
- iii. B is not sitting opposite F and A is not adjacent to H.
- iv. B is to the immediate left of G.

Who is sitting opposite H?

☐ a) E

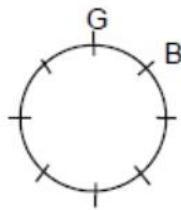

☐ b) F

☒ c) B (Your answer - ✖)

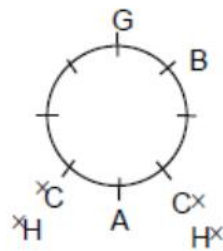

☐ d) G

Solution:

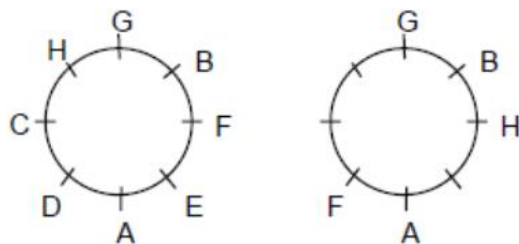

From (iv), we have

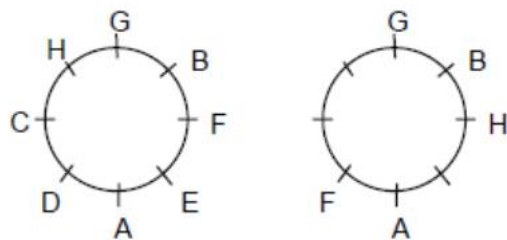

From (ii) and (iii), we have

From (i), we have two cases

From (i), we have two cases

From (iii) case II is not possible.
The final arrangement is case I.

E is sitting opposite H.

Choice (A)

Who is sitting to the immediate left of E?

- ☐ a) B
- ☐ b) F

☒ c) D (Your answer - ✖)

☐ d) A (Correct Answer - ✔)

Who is sitting opposite F?

☒ a) E (Your answer - ✖)

☐ b) D

☐ c) C (Correct Answer - ✔)

☐ d) None of these

Who is sitting two places away to the left of G?

☐ a) B

☒ b) F (Your answer - ✔)

☐ c) E

☐ d) H

Directions for questions 13 to 15: These questions are based on the following information.

Eight persons A, P, B, Q, C, R, D and S sit around a circular table, not necessarily in the same order. Some of them are facing the centre and the rest are facing away from the centre.

R faces the person, who is two places away from S. P and A sit adjacent to each other and one of them is to the immediate right of Q and the other one is to the immediate right of R. B does not sit adjacent to S, but sits second to the right of P and third to the left of A. S neither faces P nor to the immediate right of D. Exactly one pair of adjacent persons is facing the centre and C and R are not adjacent to each other.

Who sits second to the right of D?

☐ a) S

☐ b) P

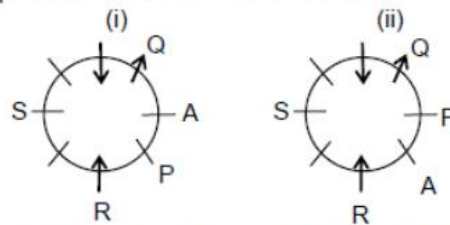

☒ c) A (Correct Answer - ✓)

☐ d) C

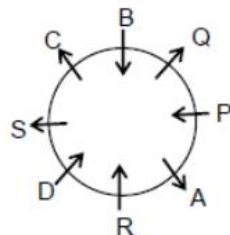

Solution:

Given, R faces the person, who is two places away from S. P and A sit adjacent to each other and one of them is to the immediate right of Q and the other one is to the immediate right of R.

Hence the possible cases are as shown below.

Given B does not sit adjacent to S, but sits second to the right of P and third to the left of A. Hence case (i) is eliminated. Since we cannot place B. In case (ii), B sits opposite R and P faces the centre and A faces away from the centre. Given S neither faces P nor to the immediate right of D. Hence S faces away from the centre, D faces the centre and sits to the immediate left of R. C faces away from the centre and sits to the immediate right of S. Since exactly one pair of adjacent persons is facing the centre and C and R are not adjacent to each other. Hence the final arrangement is as shown below.

A sits second to the right of D.

Choice (C)

Who sits four places away from A?

☐ a) Q

☐ b) S

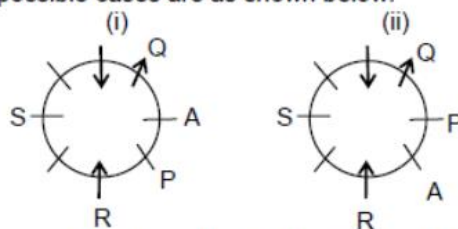

☐ c) C (Correct Answer - ✓)

☐ d) Cannot be determined

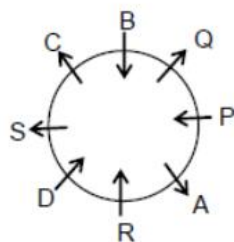

Solution:

Given, R faces the person, who is two places away from S. P and A sit adjacent to each other and one of them is to the immediate right of Q and the other one is to the immediate right of R.

Hence the possible cases are as shown below.

Given B does not sit adjacent to S, but sits second to the right of P and third to the left of A. Hence case (i) is eliminated. Since we cannot place B. In case (ii), B sits opposite R and P faces the centre and A faces away from the centre. Given S neither faces P nor to the immediate right of D. Hence S faces away from the centre, D faces the centre and sits to the immediate left of R. C faces away from the centre and sits to the immediate right of S. Since exactly one pair of adjacent persons is facing the centre and C and R are not adjacent to each other. Hence the final arrangement is as shown below.

C sits four places away from A.

Choice (C)

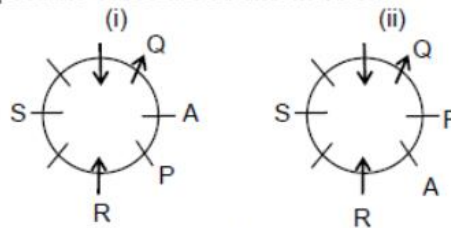

How many more number of persons are facing away from the centre when compared to the number of persons facing the centre?

- ☐ a) None (Correct Answer - ✓)
- ☐ b) One
- ☐ c) Two
- ☐ d) Cannot be determined

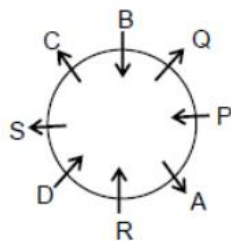

Solution:

Given, R faces the person, who is two places away from S. P and A sit adjacent to each other and one of them is to the immediate right of Q and the other one is to the immediate right of R.

Hence the possible cases are as shown below.

Given B does not sit adjacent to S, but sits second to the right of P and third to the left of A. Hence case (i) is eliminated. Since we cannot place B. In case (ii), B sits opposite R and P faces the centre and A faces away from the centre. Given S neither faces P nor to the immediate right of D. Hence S faces away from the centre, D faces the centre and sits to the immediate left of R. C faces away from the centre and sits to the immediate right of S. Since exactly one pair of adjacent persons is facing the centre and C and R are not adjacent to each other. Hence the final arrangement is as shown below.

The number of persons facing away from the centre is the equal to the number of persons facing the centre.
Choice (A)
